Such revisions, if any, will be announced by an addendum or addenda to this invitation for bid. If the addenda are of a nature which requires material changes in quantities or prices to be bid or both, the date set for opening bids may be postponed by such number of days as in the opinion of the issuing officer will enable bidders to revise their bids. In such cases, the addendum will include an announcement of the new date for opening bids.

X. ACCESS TO RECORDS AND OTHER REVIEW:

The Contractor, including its subcontractors, if any, shall maintain books, documents, papers, accounting records and other evidence pertaining to cost incurred and to make such materials available at their respective offices at all reasonable times during the contract period and for three (3) years from the date of the final payment under the contract, for inspection by the Government. Each subcontract by the Contractor made pursuant to this Agreement shall include a provision containing the conditions of this Section.

XI. DPW's DISCRETION IN ITS DEVELOPING OF A MULTI-STEP COMPETITIVE SEALED BID.

DPW has discretion in its developing of the multi-step competitive sealed bid as to the Phase I, the technical phase, as to the number of steps in which bidders submitted Unpriced Technical Offers are to be evaluated, and the enumeration of the criteria by which the technical offers are to be evaluated as acceptable, potentially acceptable (that is reasonably susceptible of being acceptable), and unacceptable. And DPW has discretion as to whether or not it has discussions with those with any offeror who submits an acceptable or potentially acceptable Unpriced Technical Offer.

DPW's project is a "Chalan Pago-Ordot New Multi-Purpose Recreation / Emergency Center", which needs to be in compliance with all Federal and Guam laws, conforms to Office of Economic Adjustment (OEA), Defense Community Infrastructure Grant Program and also conforms with U.S. Department of Interior, Office of Insular Affairs as well as in full compliance with all federal grant terms and conditions.

This is a special niche type of construction with unique regulatory requirements, and DPW does not have internal expertise in this area, and therefore has decided to utilize a design-build method for the new construction, and a multi-step competitive sealed proposal to ensure the qualifications of the offerors; and also to permit the enhanced mutual understanding by DPW and the offerors. And, additionally, if necessary the flexibility permitted in the multiple step competitive sealed bid process to permit bidders to amend their Unpriced Technical Offers to fully meet DPW's needs and/or for DPW to amend the IFB (Multi-Step) after permitted/or mandatory discussions to ensure the bidder(s) can meet the government of Guam's requirements for this new construction "Multi-Purpose Recreation / Emergency Center".

DPW intends for this IFB Multi-Step to obtain the benefits of competitive sealed bidding by award of a contract to the lowest responsive responsible bidder, and at the same time obtain the benefits of the solicitation of technical offers and the conduct of discussions to evaluate and determine the acceptability of technical offers. As stated in 2 GARR Div 4 § 3109 (r) (2), DPW desire's to:

- (a) to invite and evaluate technical offers to determine their acceptability to fulfill the purchase description requirements;
- (b) to conduct discussions for the purposes of facilitating understanding of the technical offer and purchase description requirements, and, where appropriate to obtain supplemental information, permit amendments of technical offers, or amend the purchase description;

- (c) to accomplish Subsections 3109 (r)(2)(a) and 3109 (r)(2)(b) of this § prior to opening Phase II, submitted in separate sealed envelopes at the time of the initial submission of the Phase I Unpriced Technical Offer soliciting bids; and
- (d) to award the contract to the lowest responsive and responsible bidder in accordance with the competitive sealed bidding procedures.”

XII. AMENDMENTS TO THE INVITATION FOR BID

The right is reserved as the interest of the Department of Public Works may require revising or amending the specifications prior to the date set for opening proposals. Such revisions and amendments, if any, will be announced by an amendment or amendments to this Invitation for Bid and shall be identified as such and shall require that Offerors acknowledge receipt of all amendments issued. The amendment shall refer to the portions of the IFB it amends. Amendments shall be distributed only to offerors who submit unpriced technical proposal, and they shall be permitted to submit new unpriced technical offers or to amend those submitted. Amendments shall be distributed within a reasonable time to allow prospective Offerors to consider the issue in preparing their proposals. If the time and date set for receipt of proposals will not permit such preparation, such time shall be increased to the extent possible in the amendment. If, in the opinion of the DPW or his designee, a contemplated amendment will significantly change the nature of the procurement, the Invitation for Bid, shall be canceled in accordance with § 3115 (Cancellation of Solicitation, Rejection of All Bids or Proposals) and a new Invitation for Bid issued.

XIII. RECEIPT AND HANDLING OF UNPRICED TECHNICAL OFFERS

Unpriced technical offers shall not be open publicly, but shall be opened in front of two or more procurement officials. Such offers shall not be disclosed to unauthorized persons. Offerors may request nondisclosure of trade secrets and other proprietary data identified in writing.

XIV. EVALUATIONS OF UNPRICED TECHNICAL OFFERS

The unpriced technical offers submitted by offerors shall be evaluated solely in accordance with the criteria set forth in the Invitation for Bids. The unpriced technical proposals shall be categorized as:

- a) Acceptable;
- b) Potentially acceptable; that is, reasonably susceptible of being made acceptable; or

- c) **Unacceptable.** The Procurement Officer shall record in writing the basis for finding an offer unacceptable and make part of the procurement file. DPW may initiate Phase two of the procedure if, in the Procurement's opinion, there are sufficient acceptable unpriced technical offers to assure effective price competition in the second phase without technical discussions. If DPW finds that such is not the case, DPW shall issue an amendment to the Invitation for Bids or engage in technical discussions as set forth in Subsection 3109(t)(5).

The evaluation of technical proposals that are deemed potentially acceptable will be based on a technical assessment valued at sixty percent (60%) to sixty-nine percent (69%). Technical proposals that are deemed acceptable will be based on a technical assessment valued at seventy percent (70%) and up. All other technical proposals having a technical assessment of lower than sixty percent (60%) are considered unacceptable.

XV. DISCUSSIONS OF UNPRICED TECHNICAL OFFERS

DPW may conduct discussions with any offeror who submits an acceptable or potentially acceptable technical offer. During the course of such discussions, DPW shall not disclose any information derived from one unpriced technical offer to any other bidder. Once discussions are begun, any offeror who has not been notified that its offer has been finally found potentially acceptable may submit supplemental information amending its technical offer at any time until the closing date established by DPW. Such submission may be made at the request of the DPW or upon the bidder's own initiative.

XVI. NOTICE OF UNACCEPTABLE UNPRICED TECHNICAL OFFER

When the DPW determines a bidder's unpriced technical proposal to be unacceptable, such offeror shall not be afforded an additional opportunity to supplement its technical offer.

XVII. TRADE SECRETS AND OTHER PROPRIETARY DATA

The DPW shall examine written requests of confidentiality for trade secrets and proprietary data in the technical offer of such offeror to determine the validity of such requests. If the parties do not agree as to the disclosure of data, DPW shall inform the offeror in writing what portions of the unpriced technical offer will be disclosed and that unless the offeror protests under Chapter 9 (Legal and Contractual Remedies) of the Guam Procurement Regulations, the offer will be so disclosed. Such technical offer shall be opened to public inspection subject to any continuing prohibition on the disclosure of confidential data and unpriced technical offers of bidders who are not awarded the contract shall not be opened to public inspection unless DPW determines in writing that public inspection of such offers

is essential to assure confidence in the integrity of the procurement process; provided however, that the provisions of Subsection 3109(v)(2)(c) of this § shall apply with respect to possible disclosure of trade secrets and proprietary data.

XVIII. MULTI-STEP PROCUREMENT REQUIREMENTS:

Bidders are required to submit at the same time in a separate sealed envelope. The following;

- 1. Phase I: Unpriced Technical Offer:** Offers submitted by bidders be evaluated solely in accordance with the criteria set forth in the Invitation for Bids, and be categorized as acceptable, potentially acceptable, that is reasonably susceptible of being acceptable, and unacceptable. 2GAR, Division 4, § 3109(t) (4).
- 2. Phase II: Price Bid:** to be submitted at the same time with **Unpriced Technical Offers:** all bidders whose technical offers are determined to be acceptable during the first phase have their priced bids considered, opened and evaluated.

Price Bid associated with the design and construction of **Chalan Pago-Ordot New Multi-Purpose Recreation / Emergency Center** as stated in this IFB must be submitted together with the Bid Bond (**ATTACHMENT A-1 to A-6, Bid Bond Form**) at the same time in a sealed envelope.

Price Bid will not be opened and evaluated during Phase I but will be a part of the evaluation as a whole in determining the responsibility and responsiveness of the Offeror. DPW will pre-qualify all Offerors according to the Evaluation Criteria contained in this IFB. Once a determination of the Qualified Offerors is made, then and only then will the Submitted Sealed Bids be opened and evaluated. ALL SEALED BIDS from un-qualified Offerors will be RETURNED, UN-OPENED to the respective Offerors.

This process of procurement is designed to obtain the benefits of competitive sealed bidding by award of a contract to the lowest responsive, responsible Offeror, and at the same time, obtain the benefits of the solicitation of technical offers and the conduct of discussions to evaluate and determine the acceptability of the technical offers.

XIX. PHASE I. UNPRICED TECHNICAL PROPOSAL REQUIREMENTS

Bidders submitting bids in response to this IFB shall present satisfactory evidence that bidder or bidder's company has sufficient experience and that bidder or bidder's company is fully prepared with necessary capital, material, machinery and skilled workmen and supervision staff to satisfactorily complete the Project.

Accordingly, the offeror must submit for review the following information. While all information submitted will remain confidential, DPW reserves the right to investigate the information submitted, as is deemed necessary, before a Contract is awarded, and to disqualify any bidder if deemed to be in DPW's best interest.

(h) Test samples as the Contracting Officer may deem necessary will be procured from the various materials or equipment delivered by the Contractor for use in the work. If any of these test samples fail to meet the specifications requirement, any previous approvals will be withdrawn and such materials or equipment shall be subject to removal and replacement by the Contractor with materials or equipment meeting the specification requirements, or at the discretion of the Owner, the defective materials and equipment may be permitted to remain in place subject to a proper adjustment of the contract price. The cost of the tests will be borne by the Owner except where laboratory tests as hereinafter specified are required by the specifications.

GENERAL CONDITIONS

Recreation / Emergency Center (Design-Build)

Project no.: 600-5-1021-F-CPO

5. Laboratory Tests

(a) Any specified laboratory tests of materials and finished articles to be incorporated in the work shall be made by bureaus, laboratories or agencies approved by the Contracting Officer, and the reports of such tests shall be submitted to the Contracting Officer. The cost of the testing shall be paid for by the Contractor.

6. Methods

The Contractor shall use proper and efficient methods and appliances for the performance of all the operations connected with work embraced under these specifications, drawings and contract to secure a rate of progress which will secure completion of the work within the time specified. If, at any time before commencement of work, or during the progress thereof, such methods, equipment or appliances are inefficient or inappropriate for securing said quality of work or said rate of progress, the Contracting Officer may order the Contractor to increase their efficiency or to improve their character, and the Contractor must conform to such order. The failure of the Contracting Officer to demand such increases of efficiency or improvement shall not relieve the Contractor or his sureties from the obligations to secure such quality of work and said rate of progress and the completion of the work as required herein.

7. Labor and Materials

The Contractor shall furnish all labor, materials and equipment for the execution of the work according to the drawings, specifications and contract, and where no specifications are contained therein for whatever may be necessary, shall do all that may be termed ordinary, customary or essential to a job to be well and reliably completed. This includes concealment of all pipes and other rough items of installation if not clearly so shown on the drawings in a manner acceptable to the Contracting Officer. Structural safety shall not be impaired by such concealment. Work not particularly detailed, marked or specified shall be of equal quality as similar parts that are detailed, marked or specified. All material finished for and used in the job shall be of kind and grade specified and where not specifically called for at least of customary standard grade. All work shall be executed in accordance with their trades. Full structural safety is essential and the Contractor guarantees to accomplish same for the entire work.

8. Guarantee of Work

(a) Except as otherwise specified all work shall be guaranteed by the Contractor against defects resulting from the use of inferior materials, equipment,

or workmanship for one year from the date of final completion of the contract or from full occupancy of the building by the Owner, whichever is earlier.

(b) If within any guarantee period, repairs or changes are required in connection with guaranteed work which, in the opinion of the Contracting Officer, is rendered necessary as the result of the use of materials, equipment or workmanship which are inferior, defective or not in accordance with the terms of the contract, the Contractor shall promptly upon receipt of notice from the Owner and without expense to the Owner:

(1) Place in satisfactory condition in every particular all of such guaranteed work and correct all defects therein; and

(2) Make good all damages to the building or site or equipment or contents thereof which, in the opinion of the Contracting Officer, is the result of the use of materials, equipment or workmanship which are inferior, defective or not in accordance with the **terms of the contract**.

(c) In any case wherein fulfilling the requirements of the contract or of any guarantee embraced in or required thereby the Contractor disturbs any work guaranteed under another contract, he shall restore such disturbed work to a condition satisfactory to the Contracting Officer and guarantee such restored work to the same extent as it was guaranteed under such other contract.

(d) If the Contractor, after notice, fails to proceed promptly to comply with the terms of the guarantee, the Owner may have the defects corrected and the Contractor and his surety shall be liable for all expense incurred.

(e) All special guarantees applicable to definite parts of the work shall be stipulated in the specifications or other papers forming a part of the contract and shall be subject to the terms of this paragraph during the first year of the life of such special guarantee.

9. Defective Work

No work or material which may be defective in construction or quality or deficient in any of the requirements of the drawings and specifications will be considered accepted as a consequence of the failure of the Contracting Officer or the inspectors to discover or to point out said defects or deficiencies during the construction; nor will the presence of inspectors on the work relieve the Contractor from the responsibility of securing the quality and progress of work as required by these specifications.

Any defective work that may be discovered before the completion of the work or within such time as required by the bond shall be replaced by work and materials that shall conform to the spirit and intent of the drawings, specifications and contract.

The fact that the Contracting Officer or his representatives may have overlooked defective work shall not constitute the acceptance of work. NO PAYMENT WHETHER PARTIAL OR FINAL SHALL BE CONSTRUED TO BE AN ACCEPTANCE OF DEFECTIVE WORK OR IMPROPER MATERIALS.

The Contracting Officer may at any time by order given in writing stop any work not being done according to drawings and specifications and any order so given shall not in any way relieve the Contractor from completing his contract and shall not in any way terminate, cancel or abrogate the contract or any part thereof, and the Government of Guam shall not in any way be responsible for the delay due to stopping the work as aforesaid.

VI. INSPECTION OF WORK

1. Access to the Work

The Contracting Officer and his representatives shall have access at all times to the work for inspection whatever it is in preparation or progress and the Contractor shall provide proper facilities for such access and inspection.

2. Inspectors

Inspectors may be placed by the Contracting Officer to supervise each and every subdivision of the work or any parts or process thereof. The Contracting Officer and the inspectors shall have free access to all parts of the work at all times and shall be given every facility, information and means of thoroughly inspecting the work done and the materials used or to be used.

The inspectors shall at all times be free to perform their duties and any intimidation of any inspector by the Contractor or the employees thereof shall be sufficient reason, if the Owner shall so decide, to annul the contract.

3. As-Built Drawings

A contract set of drawings shall be maintained at the site with all changes or deviations from the original drawings neatly marked thereon in brightly contrasting color. This shall be a separate set of drawings not used for

construction purposes which shall be kept up to date as the job progresses and shall be made available for inspection by the Contracting Officer at all times. Upon completion of the contract this set of drawings shall be delivered to the Contracting Officer.

4. Inspection

(a) All materials and workmanship (if not otherwise designated by the specifications) shall be subject to inspection, examination and testing by the Contracting Officer at any and all times during manufacture and/or construction and at any and all places where such manufacture and/or construction are carried on. The Contracting Officer shall have the right to reject defective material and workmanship or require its correction. Rejected workmanship shall be satisfactorily corrected, and rejected materials shall be satisfactorily replaced with proper materials and the Contractor shall promptly segregate and remove the rejected materials from the premises. If the Contractor fails to proceed at once with the replacement of rejected materials and/or the correction of defective workmanship, the Owner may, by contract or otherwise, replace such materials and/or correct such workmanship and charge the cost to the Contractor, or may terminate the right of the Contractor to proceed as provided in paragraph 5 of Section VII, Time for Performance, the Contractor and surety being liable for any damage to the same extent as provided in said paragraph 16 for termination thereunder.

(b) The Contractor shall furnish promptly, without additional charge, all reasonable facilities, labor and materials necessary for the safe and convenient inspection and tests that may be required by the Contracting Officer. All inspections and tests shall be performed in such manner as not to unnecessarily delay the work. Special, full-size and performance tests shall be as described in the specifications. The Contractor shall be charged with any cost of inspection when material and workmanship are not ready at the time inspection is requested by the Contractor.

(c) Should it be considered necessary or advisable by the Contracting Officer at any time before final acceptance of the entire work to make an examination of work already completed by removing or tearing out same, the Contractor shall on request promptly furnish all necessary facilities, labor and materials. If such work is found to be defective in any material respect due to the fault of the Contractor or his subcontractors, he shall defray all the expenses of such examination and of satisfactory reconstruction. If, however, such work is found to meet the requirements involved in the examination and replacement, the cost of conducting the test plus 15 percent shall be allowed the Contractor and he shall in addition, if

completion of the work has been delayed thereby, be granted a suitable extension of time on account of the additional work involved.

5. Final Inspection

When the work is substantially completed the Contractor shall notify the Owner, in writing, that the work will be ready for final inspection and test on a definite date which shall be stated in such notice. The notice shall be given at least ten (10) calendar days in advance of said date and shall be forwarded through the Contracting Officer who will attach his endorsement as to whether or not he concurs in the Contractor's statement that the work will be ready for final inspection or tests on the date given but such endorsement shall not relieve the Contractor of this responsibility in the matter.

VII. TIME FOR PERFORMANCE

1. Prosecution of the Work

The Contractor agrees that said work shall be prosecuted regularly, diligently and without interruption at such rate of progress as will insure full completion thereof within the time specified. It is expressly understood and agreed by and between the Contractor and the Owner that the time for completion of the same takes into consideration the average climatic range and usual industrial conditions prevailing in the locality.

2. Suspension of Work

- (a) **Suspension for Convenience.** - The Director of Public Works or the head of a Purchasing Agency may order the contractor in writing to suspend, delay or interrupt all or any part of the work for such period of the time as the Director of Public Works or the Head of a Purchasing Agency may determine to be appropriate for the convenience of the territory.
- (b) **Adjustment of Cost** - If the performance of all or any parts of the work is, for an unreasonable period of time, suspended, delayed, or interrupted by an act of the Director of Public Works or the Head of a Purchasing Agency in the administration of this contract, or by the failure of the Director of Public Works or the Head of a Purchasing Agency to act within the time specified in the contract (or if no time specified, within reasonable time), an adjustment shall be made for any increase in the cost of performance of this contract necessarily caused by such unreasonable suspension, delay, or interrupted and the contract modified in writing accordingly. However, no adjustment shall be

made under this clause for any suspension, delay or interruption to the extent:

- (1) that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the contractor; or
 - (2) for which an adjustment is provided for or excluded under any other provision of this contract.
- (c) Time Restriction on Claim - No claim under this clause shall be allowed:
- (1) For any costs incurred more than twenty (20) days before the contractor shall have notified the Director of Public Works or the Head of a Purchasing Agency in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from suspension order); and
 - (2) unless the claim is asserted in writing as soon as practicable after the termination of such suspension , delay, interruption, but no later than the date of final payment under the contract.
- (d) Adjustments of Price - Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract.

3. Termination for Convenience

- (1) Termination - The Procurement Officer may, when the interest of the territory so require, terminate this contract in whole or in part, for the convenience of the territory. The Procurement Officer shall give written notice of the termination to the contractor specifying the part of the contract terminated becomes effective.
- (2) Contractor's Obligations - The contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the contractor will stop work to the extent specified. The contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The Procurement Officer may direct the contractor to assign the contractor's right, title, and interest under terminated orders or subcontracts to the territory. The contractor must still complete the work not terminated by the notice of termination and may incur obligations as necessary to do so.

(3) **Right to Construction and Supplies** - The Procurement Officer may require the contractor to transfer title and deliver to the territory in the manner and to the extent directed by the Procurement Officer:

- (a) any completed construction; and
- (b) such partially completed construction, supplies, materials, parts, tools, dies, jigs, fixtures, plans, drawing, information, and contract rights (hereinafter called construction material) as the contractor has specifically produced or specially acquired for the performance of the terminated part of the contract.

The contractor shall protect and preserve property in the possession of the contractor in which the territory has an interest. If the Procurement Officer does not exercise this right, the contractor shall use best efforts to sell such construction, supplies, and construction materials in accordance with the standards of 14 GCA §2706 (UCC). (See end of Subsection 6101 (10)(d) for code quotation.) This in no way implies that the territory has breached the contract by exercise of the Termination for Convenience Clause.

(4) **Compensation**

- (a) The contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data, submitted to the extent required by section 3118 (Cost or Pricing Data) of the Guam Procurement Regulations, bearing of such claim. If the contractor fails to file a termination claim within one year from the effective date of termination, the Procurement Officer may pay the contractor, if at all, an amount set in accordance with subparagraph (c) of this Paragraph.
- (b) The Procurement Officer and the contractor may agree to a settlement provided the contractor has filed a termination claim supported by cost or pricing data submitted as required by §3118 (Cost or Pricing Data) of the Guam Procurement Regulations and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the territory, the proceeds of any sales of construction materials under Paragraph (3) of this clause, and the contract price of the work not terminated.
- (c) Absent complete agreement under Subparagraph (b) of this paragraph, the Procurement Officer shall pay the contractor the following amounts, provided payments under Subparagraph (b) shall

not duplicate payments under this Paragraph:

- i. with respect to all contract work performed prior to the effective date of the notice of termination, the total (without duplication of any items) of:
the cost of such work plus a fair and reasonable profit on such portion of the work (such profit shall not include anticipatory profit or consequential damages) less amounts paid or to be paid for completed portions of such work; provided, however, that if it appears that the contractor would have sustained a loss if the entire contract would have been completed, no profit shall be allowed or included and the amount of compensation shall be reduced to reflect the anticipated rate of loss;
- ii. cost of settling and paying claims arising out of the termination of subcontractors or orders pursuant to Paragraph (2) of this clause. These cost must not include cost paid in accordance with Subparagraph (c)(i)(A) of this Paragraph.
- iii. the reasonable settlement costs of the contractor including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of property allocable to the terminated portion of this contract. The total sum to be paid the contractor under this Paragraph shall not exceed the total contract price plus the reasonable settlement costs of the contractor reduced by the amount of any sales of construction materials under Paragraph (3) of this clause, and the contract price of work not terminated.
- iv. Cost Claimed, agreed to, or established under Subparagraph (b) and (c) of this Paragraph shall be in accordance with Chapter 7 (Cost Principles) of the Guam Procurement Regulations.

(5). Remedies Clause

Any dispute arising under or out of this contract is subject to the provisions of Chapter 9 (Legal and Contractual Remedies) of the Guam Procurement Regulations.

3. Climatic Conditions

(a) When so ordered by the Contracting Officer, the Contractor shall suspend any work that may be subject to damage by climatic conditions.

(b) **Contract Completion Time.** The allowable work days for this contract were calculated after allowing for the following number of lost days in each month. Time extension on account of inclement weather will be allowed only if the daily report of the Contracting Officer's inspector indicates lost days beyond the limits shown below. Time extension on account of inclement weather on Saturday and Sunday shall be granted only if the Contractor confirms in writing at least seven (7) calendar days in advance his intention to work on weekends.

Month	Non-Working Days	Month	Non Working Days
January	07	July	10
February	05	August	11
March	05	September	12
April	04	October	10
May	05	November	07
June	06	December	07

4. Progress Report

The Contractor shall submit monthly progress report in triplicate to the Contracting Officer briefly setting forth work accomplished.

5. Owner's Right to Stop Work or Terminate Contract, Delays, Damages

(a) If:

(1) The Contractor shall be adjudged bankrupt or make an assignment for the benefit of creditors;

(2) A receiver or liquidator shall be appointed for the Contractor or for any of his property and shall not be dismissed within 20 calendar days after such appointment, or the proceedings in connection therewith shall not be stayed on appeal within the said 20 calendar days;

(3) The Contractor shall refuse or fail, after Notice of Warning from the Contracting Officer, to supply enough properly skilled workmen or proper materials; or

(4) The Contractor shall refuse to prosecute the work or any part thereof with such diligence as will insure its completion within the period herein specified (or any duly authorized extension thereof) or shall fail to complete the work within said period, or;

(5) The Contractor shall fail to make payments as specified to persons supplying labor or materials for the work, or;

(b) **Non-Performance or Delay, Damages for Delay, Time Extensions**

(1) **Default.** If the Contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as will assure its completion within the time specified in this contract, or any extension thereof fails to complete said work within such time, or commits any other substantial breach of this contract, and further fails within fourteen (14) days after receipt of written notice from the Procurement Officer to commence and continue correction of such refusal or failure with diligence and promptness, the Procurement Officer may, by written notice to the contractor, declare the contractor in breach and terminate the contractor's right to proceed with the work or such part of the work as to which there has been delay. In such event the territory may take over the work and prosecute the same to completion, by contract or otherwise, and may take possession of, and utilize in completing the work, such materials, appliances, and plant as may be on the site of the work and necessary therefor. Whether or not the contractor's right to proceed with the work is terminated, the contractor and the contractor's sureties shall be liable for any damage to the territory resulting from the contractor's refusal or failure to complete the work within the specified time.

(2) **Liquidated Damages Upon Termination.** If fixed and agreed liquidated damages are provided in the contract, and if the territory so terminates the contractor's right to proceed, the resulting damage will consist of such reasonable time as may be required for final completion of the work.

(3) **Liquidated Damages in Absence of Termination.** If fixed and agreed liquidated damages are provided in the contract, and if the

territory does not terminate the contractor's right to proceed, the resulting damage will consist of such liquidated damages until the work is completed or accepted.

(4) **Time Extension.** The contractor's right to proceed shall not be so terminated nor the contractor charged with resulting damage if:

- (a) The delay in the completion of the work arises from causes such as; acts of God; acts of the public enemy; acts of the territory, and any other territorial entity in either a sovereign or contractual capacity; acts of another contractor in the performance of a contract with the territory; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; unusually severe weather; delays of subcontractors due to cause similar to those set forth above; or shortage of materials; provided, however, that no extension of time will be granted for a delay caused by a shortage of materials, unless the contractor furnished to the Procurement Officer proof that the contractor has diligently made every effort to obtain such materials from all known sources within reasonable reach of the work, and further proof that the inability to obtain such materials when originally planned did in fact cause a delay in final completion of the entire work which could not be compensated for by revising the sequence of the contractor's operations' and
- (b) The contractor, within ten days from the beginning of any such delay (unless the Procurement Officer grants a further period of time before the date of final payment under the contract), notifies the Procurement Office in writing of the causes of delay. The Procurement Officer shall ascertain the facts and the extent of the delay and extend the time for completing the work when, in the judgment of the Procurement Officer, the findings of fact justify such an extension.

(5) **Erroneous Termination for Default.** If, after notice of termination of the contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contractor was not in default under the provisions of this clause, or that the delay was excusable under the provisions of this clause, the right and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the territory, be the same as if the notice of termination had been issued pursuant to such clause. If, in the foregoing circumstance, this contract does not contain a clause providing for termination for convenience of the territory, the contract shall be adjusted to compensate for such termination and the contract modifies accordingly.

- (6) **Additional Rights and Remedies.** The rights and remedies of the territory provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

VIII. CLAIMS, PAYMENTS

1. Contractor's Title to Materials

No materials or supplies for the work shall be purchased by the Contractor or by any subcontractor subject to any chattel mortgage or under a conditional sale or other agreement by which an interest is retained by the seller. The Contractor warrants that he has good title to all materials and supplies for which he accepts partial payments.

2. Claims

The Contractor agrees whenever required to do so by the Owner to furnish satisfactory evidence that all persons, firms or corporations who have done work or supplied materials under these specifications have been paid or have been duly notified of the completion of the work and have been secured to their satisfaction before the said Contractor shall be entitled to final payment.

In case such evidence is not furnished or in case any claim is filed with the Owner or any suit or action is instituted against the Owner as defendant or garnishes or against the Contractor in connection with the work performed or to be performed under the drawings, specifications or contract, the Owner may retain from the money due or to become due to the Contractor such sum or sums as in the judgment of the Contracting Officer will fully protect the Owner from loss, charge or expense by reason of such claim, suit or action. The Owner without prejudice to any other and further rights, may make any and all deductions for any loss, charge or expense sustained by it to which it would be entitled under the contract specifications or bond, or otherwise before paying over the balance of the sum or sums retained as aforesaid, if any, to the Contractor, his creditor, or any successful claimant against the Contractor.

No payment made or retained under this contract shall be held to relieve the Contractor and/or his sureties from his and/or their obligations under this bond to hold harmless and indemnify the Owner or its agents from any and all loss, charge or expense by reason of any unpaid claim whatsoever.

3. Claims Based On The Director Of Public Works or the Head of a Purchasing Agency's Actions or Omissions

(1) Notice of Claim. If any action or omission on the part of the Director of Public Works or the head of the Purchasing Agency or designee of such officer, the requiring performance changes within the scope of the contract constitute the basis for a claim by the contractor for additional compensation, damages, or an extension of time for completion, damages, or an extension of time for completion, the contractor shall continue with the performance of the contract in compliance with the directions or orders of such officials, but by so doing, the contractor shall not be deemed to have prejudiced any claim or additional compensation damages, or an extension of time for completion; provided;

(a) The contractor shall have given written notice to the Director of Public Works, the head of the Purchasing Agency, or designee of such officer:

(i) Prior to the commencement of the work involved, if at that time the contractor knows of the occurrence of such action or omission;

(ii) Within 30 days after the contractor knows of the occurrence of such action or omission, if the contractor did not have such knowledge prior to the commencement of the work; or

(iii) Within such further time as may be allowed by the Procurement Officer in writing.

This notice shall state that the contractor regards the act or omission as a reason which may entitle the contractor to additional compensation, damages, or an extension of time. The Procurement Officer or designee of such officer, upon receipt of such notice, may rescind such action, remedy such omission, or take such other steps as may be deemed advisable in the discretion of the Procurement Officer or designee of such officer.

(b) The notice required by Subparagraph (a) of this Paragraph describes as clearly as practicable at the time reasons why the contractor believes that additional compensation, damages, or an extension of time may be remedies to which the contractor is entitled; and

(c) The contractor maintains and, upon request, makes available to the Procurement Officer within a reasonable time, detailed records to the extent practicable, of the claimed additional costs or basis for an extension of time in connection with such changes.

(2) **Limitations of Clause.** Nothing herein contained, however, shall excuse the contractor from compliance with any rules of law precluding any territorial officers and any contractors from acting in collusion or bad faith in issuing or performing change orders which are clearly not within the scope of the contract.

(3) **Adjustments of Price.** Any adjustment in the contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this Contract.

4. Waiver of Mechanics Liens

Contractor waives any right that he now has or in the future may have to claim a mechanic's lien against the real property or improvements thereon which are the subject of this contract, to secure payment for labor and materials furnished or to be furnished by him under this contract.

5. Schedule of Values

Within three days after receipt of notice to proceed, the Contractor shall submit for approval a schedule of the estimated values of the main branches of the work totaling the amount of the contract. The format to be used will be furnished by the Contracting Officer. These values will be used for determining partial payments and as a basis for changes in work as outlined in the General Conditions.

6. Taxes

The Contractor shall, without additional expense to the Owner, pay all applicable taxes. The successful bidder will be required to comply with the applicable sections of Titles 11 and 21 of the Guam Code Annotated, as regards to licenses and taxes. In addition to the general contractor's liability, subcontractors are also subject to these provisions. Subcontractors are also required to possess Guam Service Licenses. The Contractor will be required to submit a list of his subcontractors and the monetary amount of each subcontract.

7. Materials, Services and Facilities

It is understood that except as otherwise specifically stated in the contract documents, the Contractor shall provide and pay for all materials, labor, tools, equipment, water, light, power, transportation, superintendence, temporary construction of every nature whatsoever necessary to execute, complete and deliver the work within the specified time.

8. Patents

The Contractor shall hold and save the Owner and his officers, agents, servants, and employees harmless from liability of any nature or kind, including cost and expenses, for or on account of any patented or unpatented invention, process, article or appliance manufactured or used in the performance of the contract including its use by the Owner, unless otherwise specifically stipulated in the contract documents.

9. Payment by Contractor

The Contractor shall pay;

(a) for all transportation and utility services not later than the 20th day of the calendar month following that in which such services are rendered;

(b) for all materials, tools, and other expendable equipment to the extent of 90 percent of the cost thereof, not later than the 20th day of the calendar month following that in which such materials, tools and equipment are delivered at the site of the project, and the balance of the cost thereof not later than the 30th day following the completion of that part of the work in or on which such materials, tools and equipment are incorporated or used;

(c) to each of his subcontractors, not later than the 5th day following each payment to the Contractor, the respective amounts allowed the Contractor on account of the work performed by his subcontractors, to the extent of such subcontractor's interest therein.

10. Extras

Except as otherwise herein provided, no charge for any extra work or materials will be allowed unless the same has been ordered in writing by the Owner and either the price is stated in such order or a definite acknowledgment is made that a change in price is involved subject to later determination.

11. Differing Site Conditions (Please refer to Alternative "A" for this project)

(Alternative A)

(1) Notice - The contractor shall promptly, and before such conditions are disturbed, notify the Director of Public Works or the Head of a Purchasing

Agency of:

(a) Subsurface or latent physical conditions at the site differing materially from those indicated in this contract; or

(b) unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract.

- (2) **Adjustment of Price or Time for Performance** - After receipt of such notice, the Director of Public Works or the Head of a Purchasing Agency shall promptly investigate the site, and if it is found that such conditions do materially so differ and cause an increase in the contractor's cost of, or the time required for, performance of any part of the work under this contract, whether or not changed as a result of such conditions, an adjustment shall be made and the contract modified in writing accordingly. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract.
- (3) **Timeliness of Claim** - No claim of the contractor under this clause shall be allowed unless the contractor has given the notice required in this clause; provided, however, that the time prescribed therefor may be extended by the Director of Public Works or the Head of a Purchasing Agency in writing.
- (4) **No Claim After Final Payment** - No claim by the contractor for an adjustment thereunder shall be allowed if asserted after final payment under this contract.
- (5) **Knowledge** - nothing contained in this clause shall be grounds for an adjustment in compensation if the contractor had actual knowledge of the existence of such conditions prior to the submission of bids.

(Alternative B)

The contractor accepts the conditions at the construction site as they eventually may be found to exist and warrants and represents that the contract can and will be performed under such conditions, and that all materials, equipment, labor and other facilities required because of any unforeseen conditions (physical or otherwise) shall be wholly at the contractor's own cost and expense, anything in this contract to the contrary notwithstanding.

12. Price Adjustment

- (1) Any adjustment in contract pursuant to clauses in this contract shall be made in one or more of the following ways:
 - (a) by agreement on fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;
 - (b) by unit prices specified in the contract or subsequently agreed upon;
 - (c) by the costs attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as specified in the contract or subsequently agreed upon;
 - (d) in such other manner as the parties may mutually agree; or
 - (e) in the absence of an agreement between parties, by a unilateral determination by the Director of Public Works or the Head of a Purchasing Agency of any cost attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as computed by the Director of Public Works or the Head of a Purchasing Agency in accordance with generally accepted accounting principles with applicable sections under Chapter 7 (Cost Principles) of the Guam Procurement Regulations and subject to the provisions of Article 5, Chapter 5 of 5 GCA (Legal and Contractual Remedies) of the Guam Procurement Act.
- (2) Submission of Cost or Pricing Data - The contractor shall submit cost or pricing data for any price adjustments subject to the provisions of §3118 (Cost or Pricing Data) of the Guam Procurement Regulations.

13. Changes in Work

- (a) The Owner may at any time, by a written order, and without notice to the sureties, make changes in the drawings and specifications of this contract and within the general scope thereof. However, no change will be made which increases the total contract price without notice to sureties. In making any change, the charge or credit for the change shall be determined by the following method:
 - (1) The actual cost of:
 - I. Labor, including foreman
 - II. Materials entering permanently into the work
 - III. Equipment rental cost during time used on extra work
 - IV. Power and consumable supplies
 - V. Insurance
 - VI. To the above cost there shall be added a fixed fee to be agreed upon, but not to exceed 15% of the net cost. This fee shall be

compensation to cover the cost of supervision, overhead, bond, profit and other general expenses.

(b) The Contractor shall, when required by the Owner, furnish to the Owner an itemized breakdown of the quantities and prices used in computing the value of any change that might be ordered.

(c) In figuring changes, instructions for measurement of quantities set forth in the specifications shall be followed.

(d) If any part of the work as installed is at variance with the contract requirements, the Owner may, if he finds it to be in his interest, allow all or any part of such work to remain in place subject to a proper adjustment in the contract price.

14. Payment to Contractor

(a) Unless otherwise provided in the specifications, the Owner will make partial payments to the Contractor after receipt and approval of the request for partial payment covering the work performed during the preceding calendar month. No payments for installed materials on the site will be made unless such request is accompanied by a receipt or certification showing that the Contractor has made payment in full for such work done. In preparing such estimates, preparatory work done shall not be considered for payment. Materials delivered to site shall be considered for payment subject to the following conditions:

(1) The material shall be kept in a safe and enclosed warehouse or area located on site with restricted access.

(2) The receipt and issue of material must be controlled by a stock card kept in the warehouse.

(3) Insurance coverage required under Section 11, Chapter IV of the General Conditions shall include insurance of such material and shall include theft insurance.

(4) Request for payment must be accompanied with certification and receipts indicating the cost of material and showing that Contractor has made full payment for such material.

(b) In making such partial payments there shall be retained ten percent (10%) of the estimated amount until final completion and acceptance of all work covered by the contract. However, if the Contracting Officer, at any time after 50 percent

of the work has been completed, finds that satisfactory progress is being made, he may authorize payment in full of each progress payment for work performed beyond the 50 percent stage of completion. Also, whenever the work is substantially complete, the Contracting Officer, if he considers the amount retained to be in excess of the amount adequate for the protection of the Government, at his discretion, may release to the Contractor all or a portion of such excess amount.

(c) All materials and work covered by partial payments made shall thereupon become the sole property of the Owner, but this provision shall not be construed as relieving the Contractor from the sole responsibility for all materials and work upon which payment have been made, or the restoration of any damaged work or as a waiver of the right of the Owner to require the fulfillment of all of the terms of the contract.

(d) Release of Claims - Neither the final payment or any part of the retained percentage shall become due until the Contractor shall deliver to the Owner through the Contracting Officer a complete release of all claims against the Owner arising under and by virtue of this contract, including claims of all subcontractors and suppliers of either materials or labor, other than such claims, if any, as may be specifically excepted by the Contractor.

(e) Certificate of Completion - Upon completion and acceptance of all work whatsoever required and the release of all claims against the Owner as specified, the Contracting Officer shall file a written certificate with the Owner and with the Contractor as to the entire amount of work performed and compensation earned by the Contractor, including extra work and compensation therefore.

(f) Final Payment - Within thirty (30) calendar days after the filing of such certificate of completion, the Owner shall pay to the Contractor the amount therein stated less all prior payments and advances whatsoever to or for the amount of the contract. All prior estimates and payments including those relating to extra work shall be subject to correction by this payment which is throughout this contract called Final Payment.

(g) Acceptance of Final Payment Constitutes Release - The acceptance by the Contractor of the final payment shall be and shall operate as a release to the Owner of all claims and of all liability to the Contractor for all things done or furnished in connection with this work and for every act and neglect of the Owner and others relating to or arising out of this work, excepting the Contractor's claims for interest upon the final payments if this payment be improperly delayed. No payments, however, final or otherwise shall operate to release the Contractor or

his sureties from any obligations under this contract or the performance and payment bonds.

If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.95 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2021. If this contract is covered by the EO and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must pay workers in that classification at least the wage rate determined through the conformance process set forth in 29 CFR 5.5(a)(1)(ii) (or the EO minimum wage rate, if it is higher than the conformed wage rate). The EO minimum wage rate will be adjusted annually. Please note that this EO applies to the above-mentioned types of contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but it does not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60). Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or

"UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination

- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
